

Changing the area code using the county line will split our 492 exchange in half. The elementary school in the Village of Arcade will be in one area code and the other three buildings in the other. Most of the Arcade area has more of a connection with Buffalo than it does with Rochester and an area code other than Buffalo may very well hurt the local businesses that already struggle. Please reconsider your decision on the boundry lines and keep the 492 exchange with 716.

Thank you.

Chief John Laird
